

Transparent, landscape or portrait orientation soft vinyl plastic card holders for carrying passport

Overview

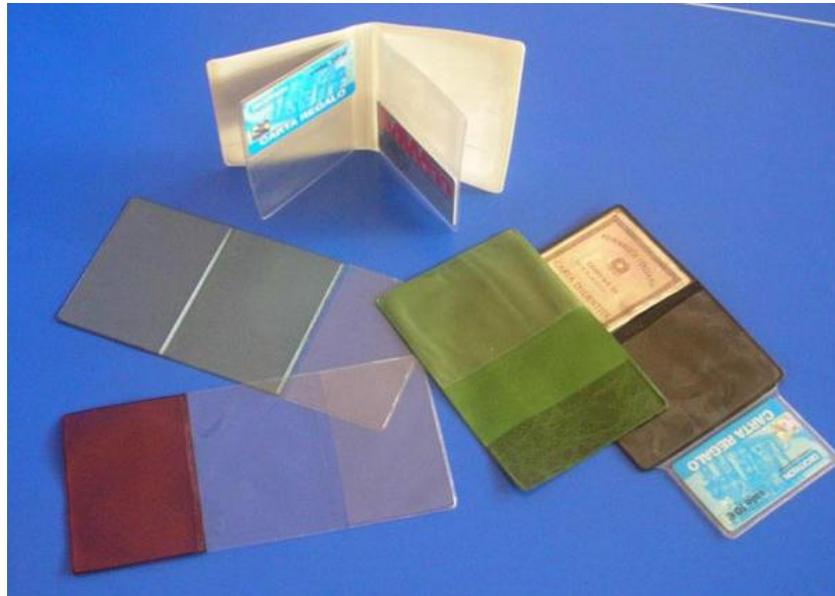

Another plastic card holder is made of soft vinyl, which is transparent. It is sometimes named card pouch or card sleeve. By the ultrasonic welding process and different molds STAR TREND can produce the soft card holders of various shapes, sizes and thicknesses. The soft vinyl could be glossy or frosted finish. On its surface we can also print trademark by silk screen process. The soft card pouch is ideal for short time identification purposes which can be used in conjunction with lanyards, chains and clip and strap through the pre-punched holes. It includes [transparent plastic card holder](#), [vinyl card holder](#) and [vinyl badge holder](#).
